

December 13, 2017

Dear Mr. President,

You could have your wall paid for, create 1.7 million new American jobs, and generate \$210 billion for states to spend on education, healthcare, courts and enforcement.

It's a simple proposal — and at the core is a 10-year special work permit for unauthorized immigrants, many of whom have badly needed journeyman skills in infrastructure, construction, farming and food processing.

We propose that these immigrants, men and women, be issued the work permits on condition that they pay the small amount of 5 percent of their wages, which will be matched by their employers.

I ask that you direct the Ways and Means Committee to write a bill based on the proposal described on this web page (<http://immigranttaxgroup.org/solution/>), have it scored by the CBO, and protect U.S. Taxpayers from the unfair burdens placed on them by our presently broken immigrant tax policies.

All the Best,

Mark Jason, Director
Immigrant Tax Inquiry Group
